SECRET/CONTROL/US OFFICIALS ONLY	

SECRET/CONTROL/US OFFICIALS ONLY
CONFIDENTIAL 2

- 6. The regiment was organized into a headquarters, a headquarters company, a technical company consisting of a signal, an engineer and a reconnaissance platoon, a 1st Inf Bn, a 2d TK Bn, a 3d FTK In and a 4th Tank Bn. The 1st Inf Consisted of 4 companies of 4 platoons each and was considerably below its authorized strength of 528 men. In October 1951, the actual strength of the regiment was estimated at 850 men, with the 1st Bn having a strength of more than 200, the 2d Bn about 180, the 3d and 4th Bns about 150 each, the headquarters company about 90 and the tochnical company about 60 men. (4)
- 7. The regiment was equipped with Czech rifles, model 48-B submachine guns, light and heavy machine guns, about 15 AT guns, an undetermined number of 820-mm mortars, 9 120-mm mortars, about 25 T-34 tanks and 15 Cromwell tanks. German rifles and submachine guns had been turned in during April 1951. Motor vehicles of the regiment included about 120 model HKL-10 track-laying armored vehicles and an undetermined number of trucks of various types, jeeps and motorcycles.
- 8. Combined—arms training of the regiment was last conducted at the Kaiserwald troop training grounds from 15 May to 15 August 1951. The four regiments of the division mentioned in paragraph 1 participated in the exercises. They repeatedly used live ammunition. Training and combat alerts were conducted at the military post. The troops were alerted for combat readiness by the code word Assault—libb and had to be ready for departure within one hour. They were issued 60 rounds for each rifle, 120 rounds for each submachine gun and 100 rounds for each light machine gun.
- 9. On 1 October 1950, a new Soviet-style service manual was issued, containing chapters on disciplinary order, interior duty and post duty.

25X1	10. the 8th Tank Div was stationed
20/(1	in Caslav (0 50/M 17)。(5)
25.X1	Comments
	(1) The report confirms the 38th Sokolovsky Mtz Inf Regt in Beroun, which has been
	carried as battalion to date, and General Papousek (fnu) as the commanding
0574	general of the 1st 1D in Prague the 5th Mtz Inf Bn was stationed in Kladno and the 25th Mtz Inf Bn, in Terezin. Both of
25X1	them were subordinate to the 5th litz Inf Div and were probably reorganized
	into regiments in the fall of 1950. This is the first report to mention an
	infantry regiment with the surname Tomase Garyka Masaryka. Although a
	component of the 5th Mtz Inf Div was previously reported to be stationed in
	Louny, it is doubted that the division should have as many as four infantry
	regiments.
	(2) The 38th Inf Bn was apparently reorganized into a mechanized regiment. This
	would conform a report which referred to the 5th Riv as 5th Mecz Div.
	. The 21st Tank Brig, which undoubtedly furnished personnel to the mechanized regiments, has been carried in Zatec. Since tanks and SP
	guns from Zatec were reported to have been in the Kaiserwald in July 1751,
05)//	it is believed that tank units of the 5th Mecz Div continue to be stationed
25X1	in Zatec. See MGL - 15527
25X1	(3) The report confirms statements of November 1951 by a refugec.
23/1	(h)TK (Tezka Kulomety) battalion means heavy machine gun battalion, and PTK
25X1	(Propiletadlove Tezke Kulomety) battalion means heavy AA machine gun
	buttalion. The organization of the regiment as mentioned in the report is not
25X1	believed to be the standard organization of a Czech mechanized regiment. Source may have confused the battalions and companies, or the organization
	specified may have been for training purposes only.
	(5)An 8th Mtz Inf Div has been carried in the Kolin-Caslav area.
	Them 12 of the Annex confirms previous information stating that
	the 1927 class was due for discharge on 20 October 1951.
